Author Index to Volume 1

Budzikiewicz, H. Mass spectrometry of amino steroids and steroidal alkaloids, 125

Bursey, M. M. Hydrogen migration in electron ionization, 3

Costello, C. E. Mass spectral studies of lipid topology in biological membranes, 169

Dermer, O. C. See Waller, G. R.

Ende, M., and Spiteller, G. Contaminants in mass spectrometry, 29

Flammang, R. See Maquestiau, A.

Franck, R. W. See Pihlaja, K.

Hesse, M. See Kühne, H.

Jalonen, J. See Pihlaja, K.

Krueger, H. W., and Reesman, R. H. Carbon isotope analyses in food technology, 205

Kühne, H., and Hesse, M. The mass spectral retro Diels-Alder reaction of 1,2,3,4-tetrahydronaphthalene, its derivatives and related heterocyclic compounds, 15

Lifshitz, C. Time-resolved appearance energies, breakdown graphs, and mass spectra: the elusive "kinetic shift," 309

Maquestiau, A., and Flammang, R. Studies of prototropy by mass spectrometric methods, 237

Meyerson, S. See Pihlaja, K.

Pihlaja, K., Jalonen, J., Franck, R. W., and Meyerson, S. Strain energies in alkyl-substituted benzenes, naphthalenes, and some other related systems, 107

Reesman, R. H. See Krueger, H. W.

Spiteller, G. See Ende, M.

Vink, J. Determination of drug bioavailability by mass spectrometry, 349

Waller, G. R., and Dermer, O. C. Editorial, 1

Wood, G. W. Field desorption mass spectrometry: Applications, 63

Yinon, J. Mass spectrometry of explosives: Nitro compounds, nitrate esters, and nitramines, 257

Mass Spectrometry Reviews
Contents
Volume 1, 1982

Number 1, Spring 1982

Editorial
G. R. Waller and O. C. Dermer 1

Hydrogen migration in electron ionization
M. M. Bursey 3

The mass spectral retro Diels-Alder reaction of 1,2,3,4-tetrahydronaphthalene, its derivatives and related heterocyclic compounds
H. Kühne and M. Hesse 15

Contaminants in mass spectrometry
M. Ende and G. Spiteller 29

Field desorption mass spectrometry: Applications
G. W. Wood 63

Instructions for Contributors 103

Number 2, Summer 1982

Strain energies in alkyl-substituted benzenes, naphthalenes, and some other related systems
K. Pihlaja, J. Jalonen, R. W. Franck, and S. Meyerson 107

Mass spectrometry of amino steroids and steroidal alkaloids
H. Budzikiewicz 125

Mass spectral studies of lipid topology in biological membranes
C. E. Costello 169

Announcement 199

Instructions for Contributors 201

Number 3, Fall 1982

Carbon isotope analyses in food technology
H. W. Krueger and R. H. Reesman 205

Studies of prototropy by mass spectrometric methods
A. Maquestiau and R. Flammang 237

Mass spectrometry of explosives: Nitro compounds, nitrate esters, and nitramines
J. Yinon 257

Number 4, Winter 1982

Time-resolved appearance energies, breakdown graphs, and mass spectra: the elusive "kinetic shift"
C. Lifshitz 309

Determination of drug bioavailability by mass spectrometry
J. Vink 349

Instructions for Contributors 395
